**Subject:** Root cause inspection - Williams olefins  
**Date:** Thursday, June 13, 2013 4:39:00 PM

---

Just talked with Steve Thompson and Sam Tates about conducting an after action/root cause inspection at the Williams olefins facility. Steve and Sam were requesting Bill's assistance in conducting the inspection during the week of June 24 (provided the response and recovery will not be hindered by the inspection) or at a later date as appropriate. We will meet next week to further discuss the plans.
